IMPELLERS EN ANDERE SLIJTONDERDELEN VOOR KOELWATERPOMPEN

In deze brochure vindt u de meest voorkomende impellers, pakkingen, deksels, kammen en slijtplaten uit ons assortiment. Ons assortiment koelwaterpompen vindt u in onze webshop (shop.clouds.nl)

Andere typen en/of modellen:

Laat het ons weten als u een bepaald type impeller, pakking of deksel niet in deze brochure vindt. Het kan zijn dat wij deze wel kunnen leveren.

NEDERLANDSE JACHTBOUW INDUSTRIE

lid
koninklijke
metaalunie

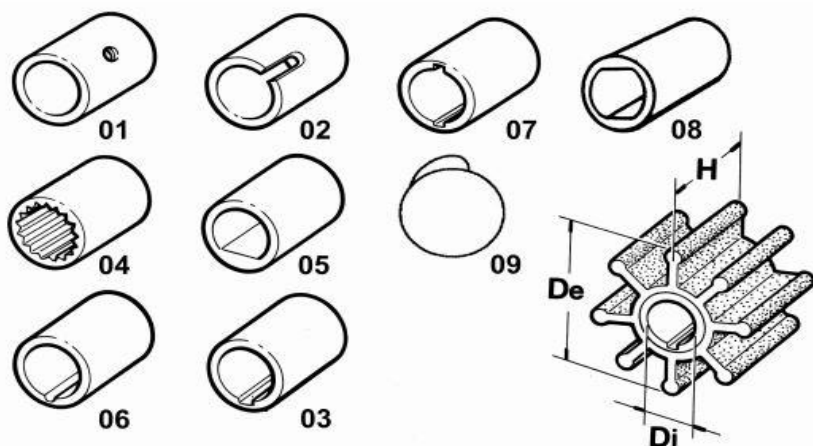

De impeller is een belangrijk onderdeel van het koelsysteem van de motor. Deze dient elk jaar, of bij intensief gebruik elke 500 uur vervangen te worden. Ze zijn meestal gemaakt van neopreen rubber, voor goede mechanische eigenschappen (slijtvast). Dit is de beste keuze voor een koelwaterpomp. Als de impeller wordt toegepast is een bilgepomp, waarbij deze in aanraking kan komen met olie of brandstof, is nitrile rubber een betere keuze. Deze zijn minder slijtvast, maar hebben een betere chemische bestendigheid, waardoor uitzetten van rubber en daardoor blokkeren van de pomp wordt voorkomen.

**Koelwaterpompen:**

Wij bieden een compleet assortiment impeller-/koelwaterpompen voor de meest voorkomende scheepsdieselmotoren. Deze staan o.a. in onze webshop (shop.clouds.nl). Vindt u niet wat u zoekt, laat het ons weten!

Prijzen:

De prijzen van al deze artikelen vindt u op onze website "clouds.nl" en/of in onze webshop "shop.clouds.nl"

Leveringscondities:

In alle gevallen waarin wij optreden als aanbieder of leverancier zijn op onze offertes, op opdrachten aan ons en op met ons gesloten overeenkomsten de METAALUNIEVOORWAARDEN van toepassing. Deze voorwaarden zijn gedeponeerd bij de griffie van de rechtbank Rotterdam.
